LaVoy Utley  
333 South US Highway 89  
Sevier, Utah 84766

Dear Mr. Utley:

It has been brought to my attention by Ray Owens, Sevier River Commissioner, that the parshall flume at the head of the Wells Canal is in need of repair or replacement. In it's present condition, it is not possible to record accurately the amount of water flowing in the canal.

I would appreciate your immediate attention to this matter. Please contact Mr. Owens at 527-3269 as soon as possible to correlate with him a solution to this problem.

Sincerely,

M. Stanley Adams, P.E.  
Area Engineer
